USE OF TRAINED INTELLIGENCE ANALYSTS

50X1-HUM

At Wolgast 10,000 workers from Usedom Island and the town itself have been  
conscripted for the building of a new torpedo boat yard. They are to  
receive extra pay and rations while engaged in the building project.

The Vulkanwerft in Rostock is to deliver the steel hulls for the torpedo boats  
to be produced at the new yard.

The Waggonfabrik Wismar is to provide the screws and the "propeller shafts".

The Stralsunder Schiffswerft will deliver the steel superstructures.

5. Some of the Diesel engines are to be delivered from Kaliningrad.  
It is probable that the former Borsigwerft there will make these engines.
